

The Agent Infrastructure Stack | Market Map (Mid-2026)

75+ companies · \$14B+ disclosed funding · 8 layers · Red = acquired · Green = open source

▶ AGENTS AS PRODUCTS

~\$6.1B+

Cognition **\$2.5B+** \$492M ARR, software eng. Sierra **\$1.585B** customer exp. Harvey **\$1.22B+** legal Decagon **\$481M** support Factory **\$220M**
CodeRabbit **\$88M** code review Chatbase AI customer support agent AssistLoop support + human escalation Cubic AI code reviews Sourcery AI code reviews

Top 3 companies hold 87% of layer capital; code review and customer support are the two largest verticals

◆ SECURITY

~\$700M+

Robust Intelligence → Cisco Oct 2024 Lakera → Check Point ~\$300M, Sep 2025 Galileo AI → Cisco Apr 2026 Protect AI → Palo Alto ~\$500M+, Apr 2025
Patronus AI **\$40M** Descope **\$88M** agent identity Corridor **\$30.4M** AI coding guardrails Arcjet **\$12.1M** runtime security CalypsoAI → F5 \$180M, Sep 2025

5 of 7 earliest security startups acquired within 18 months; incumbents buying faster than startups can scale

◦ EVALUATION & OBSERVABILITY

~\$500M+

Braintrust **\$120M+** AI eval, monitoring Arize AI **\$131M** Langfuse → ClickHouse Jan 2026 Helicone → Mintlify Mar 2026 W&B → CoreWeave **\$1.7B**
Autonoma AI end-to-end agent testing Kubiks logs, traces, auto-fix PRs LangSmith (LangChain) tracing, eval

Observability collapsing into databases (ClickHouse) and compute (CoreWeave); LangSmith part of LangChain's \$160M

○ ORCHESTRATION

~\$900M+

Temporal **\$650M** \$5B val, OpenAI uses for Codex Inngest ~\$34M AI workflows and agents Composio **\$29M** 100K+ devs LangChain **\$160M** 100K+ GitHub stars
CrewAI **\$38M** multi-agent roles LlamaIndex **\$27.5M** data-aware agents Dify **\$30M** 1.4M+ machines AutoGen/AG2 OSS multi-agent

OSS dominates prototyping; venture-backed targets production durability and enterprise support

⦿ PERCEPTION

~\$850M+

Browserbase **\$67.5M** serverless browsers Firecrawl **\$16.2M** web data API Parallel **\$230M** web search for AI Exa **\$357M** neural search API, \$2.2B val
Kernel **\$22M** open source Apify **\$3M** \$13.3M ARR Reducto **\$108M** doc parsing API Tavily → Nebius \$275M, Feb 2026 Jina AI → Elastic Oct 2025

Exa the largest pure-play AI search company; Tavily and Jina acquired; document parsing emerging as sub-category

□ SANDBOXED EXECUTION

~\$70M

E2B **\$32M** 88% Fortune 100 Daytona **\$31M** programmable sandboxes Runloop **\$7M** enterprise devboxes E2B integrated by HuggingFace, Perplexity, Groq

▷ MEMORY & RETRIEVAL

~\$700M+

Mem0 **\$24M** AWS SDK exclusive Pinecone **\$138M** 800K devs Qdrant **\$87.8M** Weaviate **\$67.7M** Zilliz (Milvus) **\$113M**
Chroma **\$20M** Upstash **\$11.9M** serverless Redis/Vector Mixedbread multimodal search API LanceDB **\$41M** multimodal AI data Letta **\$10M** agent memory

Neon → Databricks ~\$1B, May 2025 Voyage AI → MongoDB ~\$220M, Feb 2025 Vector DB funding stalled since 2023; acqui-hires accelerating (Neon, Voyage AI); Zilliz only new raise

■ COMPUTE & INFERENCE

~\$10B+

Cerebras **\$95B mkt cap** IPO May 2026 Together AI **\$1.5B** generative AI cloud Modal **\$466M** ~\$300M ARR Groq ~\$3B custom LPU
Fireworks AI **\$327M+** 15T tok/day fal.ai **\$587M+** media generation Lambda **\$2.3B+** GPU cloud SambaNova **\$1.48B** custom SN50 chip

CoreWeave IPO Mar 2025, CRWV DeepInfra AI inference Replicate run AI via API Largest value pool in the stack; every other layer depends on compute; 3 IPOs in 12 months

PLATFORM BUNDLERS

Absorbing standalone tools into unified provisioning surfaces

Vercel Marketplace 104 integrations, 22 categories, 14 in "Agents" Cloudflare Workers AI 50+ models, 300+ edge PoPs

Google Vertex AI Agent Builder

Azure AI Agent Service GA Jun 2025

AWS Bedrock Agents Platforms span perception, eval, security, search, and support; mirroring the taxonomy

M&A TRACKER (Sep 2024 – May 2026)

Cisco ×2 (Robust Intel., Galileo AI) Check Point (Lakera ~\$300M) Palo Alto (Protect AI ~\$500M+) CoreWeave (W&B \$1.7B) Meta (Manus ~\$2B)

ClickHouse (Langfuse) Mintlify (Helicone) Nebius (Tavily \$275M) Databricks (Neon ~\$1B) MongoDB (Voyage AI ~\$220M)

Also: IBM acquired Confluent (\$11B) + HashiCorp (\$6.4B); F5 acquired CalypsoAI (\$180M); Elastic acquired Jina AI
